

& We're in this Together

MY TOGETHER SAVING

Change your old light bulbs for energy-saving ones

This is an easy and effective switch to make, and at Tesco they're half price...forever.

Make sure your loft is fully insulated

Insulation is one of the biggest single actions you can take. B&Q are making it easy and affordable with lower prices and free advice.

Wash your clothes at 30°C.

M&S have changed the labels on their clothes to encourage you to lower your washing temperature to 30°C. This will save around 40% energy per wash.

Switch your appliances off standby

Get some help from your Sky box which will now put itself to sleep and could save up to 50% of the energy it uses.

Do an energy efficiency audit on your home

Get a free Energy Savers Report from British Gas.

Get a 'green' credit card

New Barclaycard Breathe rewards you for making 'green' purchases and also donates 50% of its profits to carbon reduction projects.

Keep your mobile to make a change

We've got offers for existing and new O2 customers.

Become an eco driver

Learn how to drive smarter and pick up a discount eco-insurance policy from More Th>n to help you on your way.

A few more things to do:

Turn off the lights when you leave the room

Boil only the water you need in the kettle

Turn your thermostat down by 1 degree

Replace an old appliance with an Energy Saving Rated one

Install solar water heating

If you have a cavity wall get it filled with insulation

Replace your old boiler with a high efficiency condensing one

Install solar electricity generation panels
